Pidgin 3 (Maintainability)

- Removed more unused signals.
- Cleaned up many things in XMPP including removing some deprecated XEPs.
- Flattened the Meson build files and removed some unnecessary checks.
- Removed the UPnP API.
- Removed the NAT-PMP port mapping.
- Removed the Novell, Sametime, SILC, and Zephyr protocol plugins.
- Removed gtkconn.[ch].
- Removed account registration.
- Removed the PidginDialog API.
- Removed the privacy API.
